

Tastefully designed house on a beautiful location in Valle Gran Rey.

Location: Casa Bernabé is located on the upper part of the popular Valle Gran Rey, in the hamlet of Lomo del Balo, on the west of the island. It is perfectly located on the hill of the mountain right in the middle of the valley, receiving sun from the morning until the afternoon. The house offers fantastic panoramic views of the valley up to the sea. A little path of about 110 m provides access on foot to the property. The sea is just 10 min away by car.

The house: was tastefully renovated and decorated by its owners. It consists of only one floor with a spacious roof terrace but it can be increased if necessary. On the entrance area we find also a big terrace. Here is the entrance to the house where we find a corridor that leads us to the dining room and the kitchen. These have been appropriately designed in a rustic style. In this area we also find the bathroom. Through a connecting room we get to the living room and the bedroom. The living room has an open chimney. The house has also a storage room. On the roof terrace there is a little room for the washing machine. The house is fully furnished and it should be acquired as it is now.
