

Country house with garden in the beautiful mountain village of Epina.

Beautiful country house in a quiet, beautiful location close to the forest and the springs of Epina.

The house consists of two floors and is a new building with an accessible flat roof. It was originally an old farmhouse of one floor with walls of natural stone and clay, but was extended and rebuilt to its present form.

On the ground floor we find three rooms. One serves as a storage room, the other two are used as bedrooms. A separate apartment could also be arranged here.

On the upper floor we find the main apartment of the house, consisting of a living room, two bedrooms, kitchen, bathroom and a larger, corridor-veranda area. Behind the house, we find the garden plot. There are several fruit trees and enough space for a garden. An outside staircase leads to the flat roof of the house. From here you can enjoy a beautiful view over the lovely nature of the village down to the sea.

The secondary building is an old stone house, built in the traditional way with stone and clay and covered with handmade tiles. It is about 50 m² and has only one room. It is accessible from both sides. An old stone oven is also available.

Land: The land extends around the main house and the secondary building up to the access road.

There are also two other garden plots available, which can also be acquired on request.

Location: The property is situated in the village of Epina, a small hamlet on the edge of the rainforest, known for its springs on the upper part of the village. The access to the house is through a footpath from the street.

More information: Drinking water and electricity connections are available. The property has water rights for the irrigation of the garden.
